## Summary

Introduced to programming at an early age by my father, I became a very passionate programmer. I would bunk classes to go to computer lab and develop new software. I am an avid explorer of new techs. I would never hesitate to learn and work on new technologies, in fact I like challenges, it thrills me. In my free time, I would learn new skills. Recently I became passionate about Flutter and React.

I am also the sole developer & owner of "**Hide in Cloud**" app on Google Play store.
